## Tenute Dettori “Tuderi” Rosso Romangia IGT

---

**Winery:** Tenute Dettori  
**Category:** Wine – Still – Red  
**Grape Variety:** 100% ancient Cannonau  
**Region:** Sennori / Sardegna/ Italy  
**Vineyard:** Badde Nigolosu cru in Sennori  
**Winery established:** 1981  
**Feature:** Biodynamic. Demeter certified

---

### Product Information

---

**Soil:** Sandy soil with more gravel, limestone, sandstone, some clay and alluvial deposits

**Vineyard size:** 2.89 hectares (7.14 acres), South facing

**Elevation:** 250 meters (820 feet)

**Age of vines:** oldest vines up to 40 years old

**Vinification:** Hand-harvest, 8 days skin maceration. Spontaneous fermentation and 3 years aging in cement tanks. 6 to 12 months bottle aged before release. No filtration and no stabilization.

**Tasting Note:** Garnet color that fades to a brick tone the more it ages. The nose has a high pitch of balsamic tones and ripe red berries with a hint of spice. In the mouth it is full of spices like rosemary and thyme, myrtle with blueberries and plum. The acidity present from start to the end the tannins are important but well integrated. “Tuderi” is the name of the mountain behind Badde Nigolosu. A large eagle’s nest was found there, which is considered an omen.

**Production:** 6,500 bottles

**Alc:** 15.5 %

### Producer Information

---

To make natural wine is not a trend for Alessandro Dettori, but rather the soul of his family’s work since 1860. Alessandro was just a boy of 12 when he began to work with his grandfather. In Romangia, the region of northern Sardegna that includes Sorso and Sennori, the vineyards have been so prized from ancient times that they were consistently protected from destruction during various conflicts, including by Napoleon. The terrain is more rugged in the North; it is a form of meditation for Alessandro to observe the hawks that wheel above his mountain walks. Sheep and wild boar are part of the area’s biodiversity, and the vineyard rows are home to aromatic herbs and indigenous berries that attract pollinators. Dettori has 26 hectares under vine, many of them more than 100 years old. With alluvial limestone and gravel so similar to that of the Southern Rhone, the soil in Romangia is often compared to that of Chateau Rayas.

This brings us to the usual questions: is cannonau grenache? Yes and no. Historical mentions of cannonau predate all records of France’s grenache. French grenache was certainly eventually brought in, and did very well, thanks to the soil, which was clearly ideal. There were certainly crossings and clonal variation over time, but Dettori’s vines, over 100 years old, represent the original, ancient cannonau. The ancient clone is distinguished by particular flavors and aromas of herbs and cola. In terms of the preservation of indigenous grapes, Alessandro is equally devoted to Vermentino. Alessandro, with his quiet, professorial mien, can talk about Vermentino for hours, and he sits on the Vermentino tasting board. He shares his love of history with his wife, who works at an Etruscan Museum. Not looking to impress anyone, Alessandro is a family man who simply carries the torch of Dettori’s history. His Demeter-certified wines are unfiltered and unfinned, and Alessandro gives much support to all the small producers who seek to make quality wine on this singular island.
